

DEV 7181

Optribution Alpha
Indoor ChassisPart of the **axing** Group

The high-density RFoF solution Alpha within the Optribution family serves up to 32 fiber links in 1 RU – the world's highest number of optical channels. Splitting and switching modules are available for redundancy application on both the transmitting and receiving sides. With an unmatched cost-performance ratio, Alpha is the optimal solution for standard RF-over-Fiber transmission up to 3 km when it comes to limited rack spacing. All Alpha modules are interoperable with all other products of the Optribution line.

Frequency Range	850...2450 MHz
-----------------	----------------

Number of Slots	8 optical 8 electrical
-----------------	---------------------------

Max. Number of Channels	32
-------------------------	----

Display	2.2" Full Color
---------	-----------------

Control	Rotary Switch
---------	---------------

Interface (Connector)	Ethernet (RJ-45)
-----------------------	------------------

Interoperability with the DEV Optribution Series

1-RU Chassis for up to 32 Optical Channels

Optical Transmitters and Receivers

Modules with 4 Channels each

CWDM Modules available

1+1 Redundancy Options

Variable Gain

Local User Interface

SNMP and DEV Web Interface

7 Years Warranty
